A Message from our Chairman and CEO

Sixty-four years ago, sixteen teachers pooled together \$84 in deposits and founded a Credit Union with the common purpose of helping people. Over the years, we have grown and become more sophisticated in the way we deliver services to our members; however, one constant remains — our commitment to helping our members and their families. To this day, our common purpose of helping people still exists.

5-star rating from
Bauer Financial

for 35 consecutive quarters

4-star rating from
Bauer Financial

for 98 consecutive quarters

In 2014, the Credit Union had a solid financial year. Deposits grew by \$18 million or 5% while loans grew by \$30 million or 15%. The Credit Union netted a profit of \$3.2 million, resulting in year-end capital of \$44.7 million and a healthy 10.2% capital ratio. With another strong financial performance, the Credit Union received a 5-star rating from Bauer Financial for all four quarters during the year. In addition, membership grew by 1,730 or 3%, resulting in 53,143 share accounts at year-end. Last year, we also enhanced convenience for our members with an added feature on our app that allows members to deposit a check with a camera phone. Lastly, we reinvested in our infrastructure and completed an extensive remodel of the Silverlake Financial Center.

Community outreach efforts reached an all-time high as our employees volunteered over 2,200 hours in the community and taught financial literacy to 952 students. The Credit Union also provided financial donations of almost \$90,000 to local organizations. The Pima Federal Golf Classic raised \$36,000 and with a match from Walgreens provided over \$72,000 of school supplies to local school districts through our partnership with Tucson Values Teachers. The Marana Chamber of Commerce recognized our community efforts and awarded our Credit Union with the Community and Business Builder of the Year Award. As noted above, our commitment to our members and communities has never been stronger.

Annually, we provide our members with a survey that lets us know how we are doing. In our most recent survey in 2014, the Credit Union received a 96% member satisfaction score, the highest score achieved since this survey was utilized in 2012. Our net promoter score, a measurement of how likely our members will recommend our Credit Union to others, increased to 60%. This was an improvement from 51% in 2012. As a comparison, top performers in our peer group across the nation received a 61% net promoter score. While acknowledging we have areas to improve upon, these increased scores indicate the Credit Union is heading in the right direction.

On behalf of our entire organization, we are grateful to our Board of Directors and Committee Members for their continued dedication to the Credit Union. As members, you elect these individuals to represent your best interest, and they continue to fulfill this critical duty for your financial cooperative. We express our whole-hearted thanks to our employees for living our shared values and delivering on our common purpose of helping others. And most importantly, we are thankful that you chose to be a member of Pima Federal Credit Union because at the end of the day, we exist because of you!

We wish you and your family the very best in 2015!

Treasurer's Report

Financially, Pima Federal Credit Union had a great year in 2014 that continued to build on the foundation established in 1951. Total assets increased by \$37 million or 9.2% to a record \$438.6 million. Total deposits grew by \$18 million or 5.3% to a year-end balance of \$361.7 million, supported primarily in regular savings, checking, and money market accounts. Certificates of deposit continued to decline, decreasing 2.8% or \$1.3 million. Given the current level of rates provided in the certificates of deposit, as driven by monetary policy and market conditions, members were increasingly wary of committing funds into longer term savings instruments.

In 2014, the Credit Union met the lending needs for a record number of current and new members, as demonstrated by our ability to meet their borrowing needs. Total loans at year-end reached a record \$225.7 million, a result of net loan growth of \$30.3 million or 15.5%. Loan quality remained high as demonstrated by the low year-end delinquency rate of .27% and loan losses of .74%. The Credit Union finished the year with net income of \$3.3 million or .76% return-on-assets, resulting in a strong year-end capital ratio of 10.19%.

Member Satisfaction

From the 2014 Member Survey
(Includes members who are satisfied
and very satisfied.)

In 2014, the local and national economy steadily improved as demonstrated through an improving unemployment rate, home price appreciation, moderate inflation, and positive gross domestic product. Similar to 2013, an accommodative monetary policy by the Federal Reserve encouraged lower interest rates in the greater market, influencing low yields the Credit Union offered on deposits and loans. While this rate environment continued to have a negative impact on savers, it had a positive impact on borrowers, offering an opportunity to purchase homes and automobiles at low rates. The membership took advantage of low loan rates as evidenced by the Credit Union's growth in total outstanding loan balances year-over-year. At the same time, due to loan growth and low loan losses, the Credit Union was able to improve earnings year-over-year. It's also worth noting that the Credit Union continues to enhance its lending solutions, and the 15.5% loan growth in 2014 reflected an increasing demand for these solutions.

As we enter 2015 and beyond, the Credit Union will carefully manage deposit and loan rates in a challenging rate environment to ensure interest margins are reasonable to support the growth and operations of the cooperative and to fulfil our value promise. Members can continue to receive full value of membership by utilizing the Credit Union for all financial solutions. This full utilization by the membership allows the Credit Union to mitigate the effects of a reduced margin while continuing to thrive in an ever-changing rate environment.

Pima Federal Credit Union is financially strong and continues to offer competitively-priced financial solutions while maintaining a strong capital ratio and low delinquencies. We continue to be poised to help our members achieve their financial hopes and dreams.

Sincerely,

Mr. Pedro Nájera, Treasurer

Mr. Eric Renaud, Executive Vice President/CFO

Credit Review Committee Report

The Credit Review Committee is comprised of three volunteers and four paid employees. Its primary purpose is to ensure an effective program for the management of credit risk. The Committee's ongoing responsibility and challenge is to balance the lending needs of the membership with the safety and soundness of the Credit Union's assets in an ever-changing economic environment. At a minimum, this includes reviewing lending losses and delinquency trends by product, credit tier, collateral, dealership, and underwriter. The committee also works with management to monitor economic trends and the potential impact to members.

Overall, delinquency and charge-offs continued to remain very low during the year, which was the result of good loan underwriting and effectively working with members as they encounter financial difficulties.

As a committee, we remain committed to helping our members with their lending needs while also appropriately managing credit risk. This balance helps our Credit Union to grow while maintaining the safety and soundness of our member-owned assets. Thank you for your ongoing trust in the Credit Union.

Supervisory Committee Report

In accordance with the Credit Union's bylaws, the Supervisory Committee consists of five member-volunteers and exists for the purpose of ensuring the Credit Union is adhering to all Board-established policies. To fulfill our responsibilities, our committee meets monthly to review audit reports and management responses, perform various audit functions, and complete surprise cash counts of tellers.

The committee selected the CPA firm of Nearman Maynard Vallez (NMV) to complete (a) the annual Financial Audit and bi-annual Verification Program and (b) the annual 401(K) and Pension Audits. The annual Financial Audit is a Certified Audit, the most thorough audit available.

The committee selected the CPA firm of Clifton Larson Allen (CLA) to oversee the internal audit program for the Credit Union. Each year, the committee collaborates with management to create an audit plan for the upcoming year. In 2014, CLA completed numerous general control audits in the following areas: loan underwriting, investments, cash handling, insurance management, vendor management, business continuity planning, indirect lending, human resources, e-services, collections, accounting, credit/debit card processing, and corporate credit cards. CLA also completed the following regulatory audits: Bank Secrecy Act (BSA), Automated Clearing House (ACH), Fair and Accurate Credit Transactions Act (FACTA), and Secure and Fair Enforcement for Mortgage Licensing (SAFE) Act.

I am pleased to report that NMV issued another Unmodified Opinion of Pima Federal Credit Union's financial records, the best report that can be assigned by a CPA firm. Additionally, all audits completed by NMV and CLA disclosed no material violations of law or unsound business practices. Both CPA firms report directly to the Supervisory Committee, which in turn reports to the Board of Directors.

On behalf of the Supervisory Committee, I want to thank the Board of Directors and Management for their support and cooperation throughout the year. I also want to thank our members for their trust in the Credit Union. 2014 was another successful year for our organization and we are looking forward to a great year in 2015.

Sincerely,

Mr. Victor Thornton, Chair
